

PART 107 – REMOTE PILOT COURSE DESCRIPTION

COURSE OVERVIEW

Welcome to 360 Aviation's Part 107 – Remote Pilot Course. This course is designed for all experience levels, whether you have no knowledge of drones and the laws that regulate them, or that you are currently a certificated Part 107 operator looking for a refresher or renewal of the FAR's and operations that govern Part 107 and commercial small UAS. Not only will you gain the necessary knowledge to pass the mandatory FAA Part 107 Written Test, but you will also gain valuable understanding of the many different applications of commercial use for UAS, hands-on training with the industry's leading drone technology, and the know-how to go about conducting any sort of drone operation from planning, to set-up, to operational execution. With our team of subject-matter experts, coming from a wide variety of backgrounds, and our advanced yet user-friendly UAS platforms, we are providing the tools that you need to walk out of here confident and ready to not only pass your written test, but to pursue any of the growing UAS opportunities that this innovative technology is continuing to present to us.

COURSE PREREQUISITES

- \$100 non refundable deposit to 360 Aviation, LLC. to reserve a spot and receive welcome packet
 - Deposit will be taken off of course fee price upon arrival
- 16 years of age or older
 - FAA minimum age to take the written test for certification
- Able to read, speak, write, and understand the English language
- Be in a physical and mental condition to safely fly a drone

WHAT TO BRING

- Government Issued Photo ID (Driver's License, Passport, Military ID)
- Notebook and writing utensils
- Laptop or iPad/tablet (smartphone will also work)
 - To access charts, imagery, and other documents necessary throughout the course

****PART 61 RATED PILOTS****

If you are already a Part 61 rated pilot, great! The good news is that you don't have to take the FAA written knowledge test like everyone else. All you need is to pass an online quiz put forth by the FAA and receive an initial sign-off from a Certified Flight Instructor or other designated person. This course can definitely benefit you with preparing for the quiz and receiving that sign-off, along with providing valuable hands-on instruction with our own unmanned aircraft. Just be sure that you bring proof of a valid flight review completed within the previous 24 months. If you need a flight review, we can also help you accomplish that right here at our flight school! Call ahead of time for proper arrangements.

COURSE EXPENSES

PART 107 – REMOTE PILOT COURSE DESCRIPTION

Course Fee	\$450	Covers all ground and flight instruction for the duration of the course.
Written Test (Approx.) paid directly to testing center	\$160	Local testing center in Austin (KAUM) or Mankato (KMKT). Can also be accomplished at any of the 700+ FAA-approved knowledge testing centers across the United States where convenient.

**Fees are subject to change at any time. We try our best to stick to the quote that was given to you.*

COURSE SUPPLIES

The following items are **NOT** required for the course but are highly recommended! They will provide you with additional study material that is useful beyond the scope of the course. We have them in stock for purchase. (We sell books at our cost)

- Pilot Handbook of Aeronautical Knowledge 2016 (FAA-H-8083-25B)
- Remote Pilot – sUAS Airman Certification Standards (June 2018) (FAA-S-ACS-10A)
- Remote Pilot – sUAS Study Guide (August 2016) (FAA-G-8082-22)
- Current FAR/AIM

HAVE YOUR OWN DRONE?

We can accommodate that! Just be sure to give us a heads up so we can plan for it. We operate DJI products here but if you would like to bring your own, be sure it is registered appropriately! There will be an additional waiver form for you to sign if you choose to bring your own.
